

# Airpoint Overview

Airpoint specialises in providing tailored mobile solutions that deliver maximum efficiency for distributed workforces. The solutions are secure and easy-to-use, making mobile computing a practical reality.

Mobility is an ideal way of freeing up an organisation's staff time to deliver more and better quality of service, whether this is in the public or private sector. Specialist packages or bespoke solutions from Airpoint can increase efficiency and provide enormous return on investment, by meeting the mobility needs of your company.

If you require a custom solution, our approach to development is based on rapid prototyping in which we interpret your requirements. Then, by an iterative process use your feedback to refine the product to match the your needs. The end result is a solution that satisfies your business objectives.

Airpoint is a UK-based company, headquartered in Leicestershire, with a dedicated development centre in Glasgow and a regional office in Oxfordshire.

## Solutions

- **Mobile Policing Suite:** complete set of BlackBerry-based solutions to assist the force in becoming more efficient and visible in their communities
- **Mobile Inspections:** enables staff to carry out onsite inspections and update central systems from their BlackBerry device in realtime
- **Defect Management for Construction and Engineering:** inspections and defect reporting achieved exclusively using a BlackBerry device, leading to substantial cost and efficiency savings
- **Transplant Patient Solution:** designed to access patient data so that available organs can be matched to patients

## Products

- **Intelliforms:** flexible and remote data capture, back office database update and reporting
- **Mobile devices:** suppliers of BlackBerry and Bluetooth-related devices

## Services

- **Mobile Consultancy:** ensure that the mobile solution you are looking for is right for your business
- **Integration Services:** if you have multiple mobile applications and devices, integration could be the answer to the increased efficiency you need
- **Bespoke Solutions:** building what you need may be the best answer for your business
